Description:

**HyKote™ Substrate Cleaner**

An all purpose cleaner to remove dirt from all substrates. HyKote™ Substrate Cleaner is utilized prior to the application of all HyKote™ primers.

**Product Highlights:**

- Can be applied with a roller or airless spray equipment
- Removes oil, grease and rust
- Non-flammable
- Low Volatile Organic Compounds (VOC)
- Dries quickly
- Biodegradable
- Easy clean up
- For specific detailed information refer to the applicable HyKote™ material substrate specification

**Application:**

Surface must be clean and free from dirt, loose rust and foreign substances

If target metal roof substrate is severely rusted, dilute HyKote™ Substrate Cleaner to a 1 to 2 ratio of cleaner to water (1 gal to 2 gal). For much lighter cleaning, a ratio of 1 to 138 parts water at the most dilution rate can be used. Determine the most economical dilution rate for the application.

Thoroughly mix diluted Substrate Cleaner. Dampen area to be cleaned with water.

Apply HyKote™ Substrate Cleaner using appropriate spray equipment (preferred method) or product may be rolled with a medium nap roller at ambient temperatures above 40˚F (4˚C).

Allow Phosphoric Acid Cleaner to work for 30 minutes.

Thoroughly rinse with water. If rust is still present, repeat as necessary.

**Clean–Up**

Rinse and/or flush equipment and tools with water

**Tools & Equipment**

Follow personal protective equipment requirements as listed on SDS. Use a medium nap roller when rolling. Spray application is preferred methodology. Use of a small hand sprayer or backpack sprayer is sufficient. Smooth broom, or roof brush to scrub. Use tarpaulins or other durable materials to protect adjacent areas from damage.

**Surface Preparation**

Certain surfaces may require power washing and wire brushing to remove loose mill scale, biomass, expended coatings, corrosion and loose particulate paint. Surface must be clean and free from dirt, loose rust and foreign substances.

**Applicator Qualifications**

All HyKote™ certified applicators are thoroughly trained by the Manufacturer in all aspects of use and application of materials. Certification credentials are issued upon completion of training activities.

**Packaging:**

- 5 Gallon pail
